

## Worksite Flu Vaccination Services 2009-2010 Season

St. Vincent's Workcare announces the start of the annual worksite flu vaccination program. This year, our team of nurses will again visit employers' worksites and administer the flu vaccine, helping employers to maintain the health of their employees.

Influenza is a serious disease, causing significant, sometimes disabling primary symptoms as well as complicating other conditions a person may have, such as heart disease, pulmonary disease, etc. Offering the flu vaccine to employees is an excellent investment, protecting both the health of employees as well as the organization.

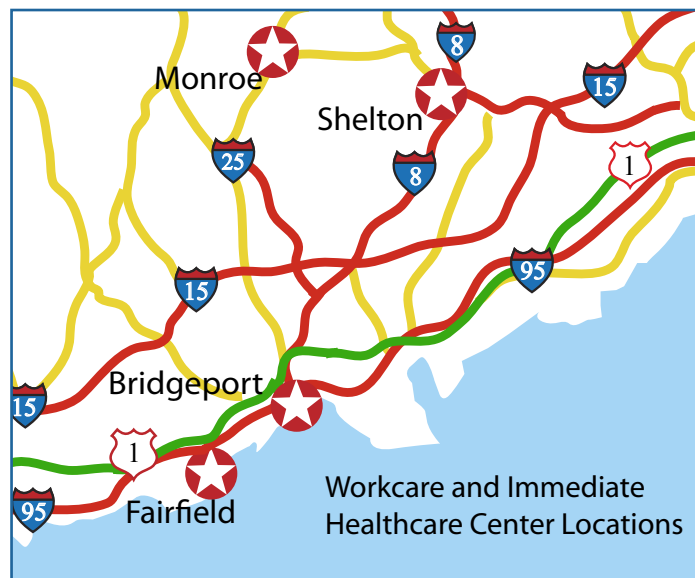

### Symptoms of Flu

- Runny or Stuffy Nose
- Muscle Aches
